surgeons and nurses who delight in seeing a neat job. It is an art that may be acquired by anyone who is willing to devote time and attention to the lessons of a good teacher. Dr. Whiting knows all the errors which must be avoided if your bandage is to combine utility with neat appearance. He also tells you how to prepare bandages of different sorts and advises as to materials and preparation of every sort of bandage in use at the present time.

A MANUAL OF FIRE PREVENTION AND FIRE PROTECTION FOR HOSPITALS.

By Otto R. Eichel, M.D., Director, Division of Sanitary Supervisors, New York State Department of Health. John Wiley and Sons, 432 Fourth Avenue, New York. Price, \$1.

This book provides in convenient form an outline of the principles of fire prevention and protection with indications for their application in institutions housing the sick. Many have been the horrors ensuing from lack of knowledge on this subject. Dr. Eichel has done a good piece of work by placing within the reach of all responsible for the care of the helpless this excellent manual.
